- **Loan File Number:** LN-2026-51208
- **Borrower:** Robert M. Sterling
- **County Jurisdiction:** Multnomah County, OR
- **County Tax Assessor PIN:** R19482-0190

Section 2: Dual Source Evidence Comparison

```
+-------------------------------------------------------------------------------------------------------+
| SOURCE COMPARISON MATRIX                                                                              |
|-------------------------------------------------------------------------------------------------------|
| Field Attribute          Source A: Uniform Appraisal 1004        Source B: County Recorded Deed       |
|-------------------------------------------------------------------------------------------------------|
| Property Address         742 Evergreen Terrace                   742 N Evergreen Ter                  |
| City, State, Zip         Springfield, OR 97477                   Springfield, OR 97477                |
| Legal Description        Lot 14, Blk 2, Oakridge Estates         Lot 14, Block 2, Oakridge Addn.      |
| Source Document Date     09/12/2026                              Recorded 04/18/2021 (Doc #49821)     |
| Authoritative Role       Subject Valuation Report                Governing Legal Title Record         |
+-------------------------------------------------------------------------------------------------------+
```

Section 3: Automated Exception & Anomaly Analysis

- **Exception Diagnostic:** `The property address on the appraisal conflicts with the deed record.`
- **Defect Classification:** `address`
- **Conflict Characterization:** Source A omitted the directional prefix (`N`) and used standard road suffix (`Terrace` vs `Ter`).
- **Non-Destructive Guardrail:** Neither address was overwritten automatically. The system established a side-by-side reconciliation record for underwriter adjudication against the governing title deed.

Section 4: Resolution & Reviewer Audit Record

- **Approved Resolution:** Propose a field correction to align the appraisal address with the deed record.
- **Synthetic Reviewer Note:**

> *"The appraisal and deed record showed different property address values in a synthetic training case. The reviewer cited both source fields and did not assume which source was authoritative without confirmation. The approved next step was to propose a correction for reviewer verification against the governing property record. Do not silently overwrite either address."*

- **Remediation Trigger:** Correction proposed to Appraiser and Title Officer: Request appraiser revise Form 1004 Subject Address to `742 N Evergreen Ter` to mirror legal vesting on recorded deed.\n
